

INTERNATIONAL WOMEN'S DAY 2021

Ensuring safety and improving the level of quality of the services provided by Beauty Salons in Cyprus, as well as the EU in general, has been the main reason and my motive, for actively participating in standardisation since 2011, in the work of CEN TC 409 Beauty Salons, representing the Cyprus Beauticians Association. It has been a valuable experience and a great opportunity to meet colleagues from other countries, discuss common challenges, but also work towards consensus when needed, in order to set the level of play in our business. It has not been always easy, but we have achieved the publication of CYS EN 17226 and are currently working on a second deliverable. CYS has been exceptionally helpful and supportive throughout this journey.

Phaedra Nissiforou - Registered Beautician

Cyprus Association of Beauticians
